

## Public reading is the sluttiest thing a man can do

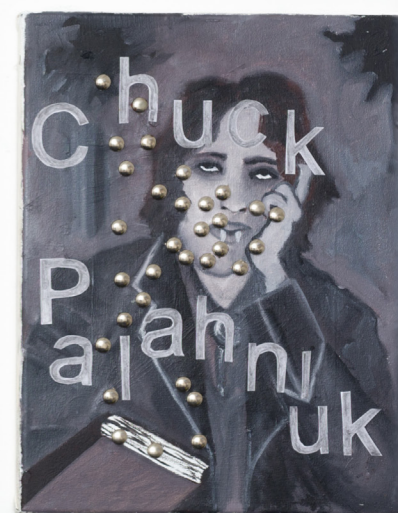

This will be an introduction to a character study on literary fuckboys: 'Men who read specific books in public spaces such as bars, parks and on public transportation'. However, the normality of this phenomenon cannot go uninvestigated because I believe there is an alternative motive for this public display of intellect. Specifically, the books these men read should be from a certain genre to apply to the title of literary fuckboy. To illustrate an example of an interaction with a literary fuckboy I will use my recent experience as a case study. The academic exhibitionism filled with esoteric romance portrayed by these types of young men is a declaration of a new era of masculinity. This new masculinity can be accounted as a reappropriating trend wave that blossomed in late-Victorian London in
